

REMARKS

Applicants respectfully request that the first named applicant for the subject application be changed to "Gordon E. Letney" The Examiner is respectfully requested to amend the file record of the present application to incorporate this change prior to examination of the present application. Applicants also note that two additional inventors, Brian L. Skeen and Carlos M. Montes have been added to the present application and identified on the attached application data sheet, amended from the application data sheet originally provided with the application filing documents filed on April 16, 2004. A declaration signed by the above two plus the four originally listed inventors was filed on July 26, 2004 in response to a Notice to File Missing Parts.

DRAWINGS

Applicants have attached revised drawings for the Examiner's approval. In the 3 "Replacement Sheets" the headers have been amended to change the heading "Inventor(s):" to Gordon E. Letney et al. The Examiner is therefore respectfully requested to enter the amended figures prior to examination of the present application.

APPLICATION DATA SHEET

Applicants have attached an amended application data sheet identifying Gordon E. Letney as Inventor One and additionally listing Brian L. Skeen and Carlos M. Montes as inventors. A total of six (6) inventors are now identified on the attached application data sheet. The Examiner is respectfully requested to enter the enclosed application data sheet.

CONCLUSION

It is believed the present application is in condition for allowance. Thus, prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: July 27, 2004
